

Liquidia Announces Oral Presentation at the 42nd Annual Meeting of International Society for Heart and Lung Transplant (ISHLT)

April 20, 2022

MORRISVILLE, N.C., April 20, 2022 (GLOBE NEWSWIRE) -- Liquidia Corporation (NASDAQ: LQDA) ("Liquidia" or the "Company") today announced that Sandeep Sahay, MD, from Houston Methodist Hospital will present clinical data from studies of YUTREPIA™ (treprostinil) inhalation powder, previously referred to as LIQ861, at the 42nd Annual Meeting of International Society for Heart and Lung Transplant (ISHLT) in Boston, Massachusetts.

Presentation details of the oral, pre-recorded presentation are as follows:

Title: Risk Assessment in Pulmonary Arterial Hypertension (PAH): Insights from the INSPIRE Study with LIQ861

Session: SESS 19 (Oral) - Risky Business in Pulmonary Hypertension

Abstract Number: 55

Date/Time: Wednesday, April 27; 3:30 p.m. – 3:40 p.m. ET

Location: Ballroom A

A copy of the presentation will be available on the [company's website](#) at the time of the presentation.

About YUTREPIA™ (treprostinil) inhalation powder

YUTREPIA is an investigational, inhaled dry powder formulation of treprostinil delivered through a proven, convenient, palm-sized device. On November 5, 2021, the FDA issued a tentative approval for YUTREPIA, which is indicated for the treatment of pulmonary arterial hypertension (PAH) to improve exercise ability in adult patients with New York Heart Association (NYHA) Functional Class II-III symptoms. YUTREPIA was designed using Liquidia's PRINT® technology, which enables the development of drug particles that are precise and uniform in size, shape, and composition, and that are engineered for optimal deposition in the lung following oral inhalation. Liquidia has completed INSPIRE, or Investigation of the Safety and Pharmacology of Dry Powder Inhalation of Treprostinil, an open-label, multi-center phase 3 clinical study of YUTREPIA in patients diagnosed with PAH who are naïve to inhaled treprostinil or who are transitioning from Tyvaso (nebulized treprostinil). YUTREPIA was previously referred to as LIQ861 in investigational studies.

About Liquidia Corporation

Liquidia Corporation is a biopharmaceutical company focused on the development and commercialization of products in pulmonary hypertension and other applications of its PRINT® Technology. The company operates through its two wholly owned subsidiaries, Liquidia Technologies, Inc. and Liquidia PAH, LLC. Liquidia Technologies has developed YUTREPIA™ (treprostinil) inhalation powder for the treatment of pulmonary arterial hypertension (PAH). Liquidia PAH provides the commercialization for pharmaceutical products to treat pulmonary disease, such as generic Treprostinil Injection. For more information, please visit www.liquidia.com.
